

ABOLARIN ISRAEL

Software Developer | Digital Communication Specialist

09138420447 | israelolusegun69@gmail.com | Nigeria

PROFESSIONAL PROFILE

A detail-oriented Software Developer with a strong technical foundation and a passion for digital communication. Highly proficient in managing online communities and facilitating engaging text-based conversations. Adept at utilizing modern collaboration tools like Slack and Discord to maintain professional, responsive, and high-quality interactions. Committed to providing a positive user experience through technical efficiency, adaptability, and professional discretion.

CORE COMPETENCIES

- **Full-Stack Technical Proficiency:** Strong command over the end-to-end development lifecycle, from designing responsive frontends in React.js to architecting robust backends using Python and PHP Laravel.
- **AI & Data Integration:** Specialized in implementing Machine Learning models and Computer Vision algorithms, with a focus on practical applications like Precision Agriculture.
- **Agile Team Leadership:** Experienced in leading technical teams, coordinating Sprint workflows in Monday.com, and managing cross-functional communication between developers and stakeholders.
- **Scalable System Design:** Capable of optimizing server-side logic and database performance to ensure high-speed performance and reliability for healthcare and web applications.
- **Technical Communication:** Skilled at translating complex technical documentation into actionable project tasks and maintaining professional, text-based dialogues in fast-paced digital environments.

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, JavaScript, React.js, PHP Laravel
- **Programming & AI:** Python, Java, C, C++, SQL, Machine Learning, Computer Vision
- **Collaboration:** Slack, Discord, Monday.com, Brevo
- **Creative & Design:** Graphics Design, Creative Writing, Community Moderation
- **Performance:** Typing Speed: 42 WPM

PROFESSIONAL EXPERIENCE

Backend Developer | GoHealthy Nigeria

June 2026 – Present

- Architecting and scaling robust server-side logic and database management for healthcare applications.

- Designing, testing, and optimizing high-performance APIs and core backend healthcare services.

Backend Developer Intern | GoHealthy Nigeria

January 2026 – June 2026

- Contributed to backend architecture and server-side logic to support healthcare digital solutions.
- Collaborated with the development team to optimize database performance and API integrations.

Web Developer | Freelance

2024 – Present

- Designing and deploying responsive web applications for various clients using modern frameworks.
- Managing the full project lifecycle from initial requirements gathering to final deployment.

Volunteer Graphics Designer | Babcock University Computer Club

2024 – Present

- Creating visual assets and promotional materials for club events and technical workshops on a volunteer basis.
- Collaborating with the executive team to maintain a consistent digital brand identity for the organization.

KEY PROJECTS

Machine Learning Lead | Computer Vision for Precision Agriculture

March 2026 – Present

- Leading a three-member development team for a university graduation project focused on AI-driven agricultural applications.
- Coordinating technical documentation and machine learning workflows.

EDUCATION

B.Sc. Computer Science | Babcock University

2023 – 2027 (In View)

High School Diploma | Christ School, Ado-Ekiti

2016 – 2022

Primary Education | Jacflorie Int'l / Grace's Nursery and Primary School

2006 – 2016
